

Jorge Pensi has designed the collection LUND looking for a universe clear, honest and full of essential elegance. A collection which consists of elegant armchairs and sofas that are available with two types of arms and two versions of upholstered bodies. The first combines the upholstery with an enveloping wooden frame in natural oak and the second has a fully upholstered seat. The different arm types, the wooden shell and the upholstery are available in all colors and finishings of the INCLASS swatch cards. The wide range of finishings together with its balanced and timeless design allow its natural integration in lounge areas, waiting spaces, lobbies and contemporary houses.

DESIGNER: Jorge Pensi

Jorge Pensi Design Studio was set up in 1984. Since then the studio has consolidated its position as a global point of reference for contemporary design. Its minimalist and expressive designs have received numerous prizes and awards. Some of its first products, such as the Toledo chair or the Regina lamp, have since become Spanish design icons renowned worldwide. In 1997, Jorge Pensi was awarded the National Design Prize by the Ministry of Industry and Energy and the BCD Foundation for outstanding professional achievement. If there is one thing which defines Jorge Pensi Design Studio's products, it is their timelessness. They constantly seek a balance between poetry and realism, material and space, abstraction and emotion. The aim is to create as many sensations as possible with as few resources as possible, challenging the usual logic in order to establish whether or not it is possible to create something new.
