

SUI is a collection of multipurpose versatile tables with a timeless design of sleek lines that arise from the rapport between flat and curved surfaces. The result is a table characterized by a subtle elegance that blends into all kinds of setting. SUI tables are entirely made with an aluminum structure that makes them light but sturdy and corrosion resistant. The system allows tables of different sizes to be created, from smaller side tables to large-size work and board room tables. The pure and essential design along with the wide range of sizes and finishes available pursue the versatility of use in all kinds of public and private settings.

DESIGNER: Carlos Tíscar

Carlos Tíscar (1964). Graduated at the School of Applied Arts in Valencia (1982), in the field of Industrial Design. Two years later, he moved to Italy to study at the Scuola Politecnica di Design in Milan. He began to make a career as a member of the industrial design group Factoría (1987) and as a partner of Gesto Design Management (1991). Since 1993 he manages his own studio. He has given industrial design lessons at some schools and public institutions: Barreira (Valencia), AIMME (Paterna), Eset CEU (Alfara Del Patriarca) and EASD (Valencia). He has given conferences on his work both in Spain and abroad and among the many prizes awarded, the Best of NeoCon Innovation Award (Chicago 2012) and the Good Design Award (Chicago 2013), undoubtedly stand out. He was president of the ADCV (Designer's Association of the Valencian Region).

STRUCTURE

The structure is entirely made out of aluminum. The outer frame and legs are made entirely out of extruded aluminum special steel profile. The corner connecting pieces are made from die cast aluminum. The use of aluminum achieves a light sturdy structure that is corrosion resistant. The table is available in a wide variety of standard sizes and can also be manufactured in special sizes for specific projects.

Finishes: Available in thermoset polyester powder coating in any of the colours of the INCLASS swatch cards.

HEIGHTS

The legs are manufactured in three different heights and have built-in levellers.

Glides: Adjustable plastic glides to protect the flooring are included.

OBSERVATIONS: The 105cm height is available only for structures up to 120x80cm.

MEASURES

The table is available in a wide variety of standard sizes and can also be manufactured in special sizes for specific projects.

METALLIC BASES

Standard

Black White Aluminum

Optional

M56 Coffeebrown M82 Stone G42 Light grey P70 Rose O25 Clay orange Y62 Mustard V16 Turquoise green B40 Marine green B36 Navi blue B44 Sky blue Rust grey Rust brown

TABLE TOPS

The table tops are available in a wide range of materials and finishes.
 The tops can be manufactured with other materials and finishes for special projects.
 The table can also be supplied without a tabletop.
 Owing to expansion of materials used, tabletop surfaces have a tolerance of +/-1mm on the outer profile sections.

13mm bilaminated top:

It is made of 13mm particle board with outer surfaces made of melamine. The edges are covered with ABS bands. Available in soft textured white colour or in oak melamine.

White

13mm lacquered mdf top:

It is made of 13mm mdf board. Available in any of the lacquer colours of the INCLASS swatch cards.

O25 Clay orange B40 Marine green B36 Navi blue M56 Coffeebrown BOO Black G49 Anthracite WO1 White
 Y62 Mustard V16 Turquoise green B44 Sky blue M82 Stone P70 Rose G42 Light grey

13mm oak veneered mdf top:

It is made of 13mm oak veneered mdf board. Finished with acrylic varnishing in all of the oak veneer stains of the INCLASS sample cards.

Natural Walnut Wenge Black stain

13mm compact top:

It is made of high density compacted fiber board. The outer surfaces are made of melamine. Available in soft textured white colour.

White

White coloured 8mm tempered glass top

Tempered glass

* For technical data of materials, please consult the annex on materials.

ACCESSORIES

SUI tables can be fitted and completed with a wide range of accessories so they can be adapted for different types of use.

Metallic pedestal with three drawers on casters:

- Drawers with an anti-tilting system.
- Top drawer with a pencil tray fitted inside.
- Security lock and key.
- Twin-wheel casters.
- Finished in white or black.

Metallic pedestal with one drawer + file drawer:

- Drawers with an anti-tilting system.
- Security lock and key.
- Top drawer with a pencil tray fitted inside.
- Bottom drawer with hanging folder filing system.
- Twin-wheel casters.
- Finished in white or black.

Upholstered pedestal top:

The upholstered pedestal top can be incorporated, in any of the fabrics or leathers from the INCLASS sample card or in any fabric supplied by the customer.

Table connecting clip:

Manufactured in steel plate, allows tables to be joined together.

Auxiliary table wing:

Manufactured in 100x60 cm in the same finishes as the tables.

CPU rail holder:

This is manufactured in steel plate and is finished in thermosetting polyester paint in the same colours as the tables. The holder is suspended from the table's upper profile.

Front panels:

Manufactured in 1.5mm. steel plate and available in two versions:

Painted metal plate: In thermosetting polyester powder coating in all colours of the INCLASS metallic finishes colour card.

Upholstered: Available in all fabrics and leathers of the INCLASS sampler or in any fabric supplied by the customer.

ELECTRICAL ACCESSORIES

Table leg with table to floor cable shield:

Allows the cables to be fed down to the floor through the inside of the leg.

Underside mesh to house cables:

Manufactured in fireproof mesh. It can be placed in any position under the tabletop, housing all kinds of cables, plugs, chargers etc...

Grommet cover round 80mm for tabletop:

Manufactured in Zamak alloy, finished in matt chrome with a black rubber cable grommet. The drill hole in the cover to facilitate insertion must be done by the customer.

Socket + round 80mm grommet cover for tabletop:

Manufactured in Zamak alloy and finished in matt chrome. The socket and grommet body is made of black plastic. The drill hole in the cover to facilitate insertion must be done by the customer.

Three-socket kit to attach to profile:

Allows a Schuko-type three socket power supply. Other configurations can be supplied on request.

Profile cable grip:

These are made from Velcro and allow cables to be fed along the table profile by means of a gripping system. They can be attached to any part of the profile.

ENVIRONMENTAL CRITERIA

- SUI tables are manufactured in 100% recyclable aluminium alloy, thereby restricting the use of dangerous substances.
- All the wooden or glass tabletops are 100% recyclables.
- High degree of recyclability. The components are easily detachable and can be separated for subsequent recycling.
- The cardboard packaging is 100% recyclable. The printing inks used on the packaging are water-based and solvent-free.
- The structures are coated with powder paint that is free of VOC emissions (Volatile Organic Compounds) through a cutting-edge process that includes the recovery of any unused paint, for reuse, as well as the cleaning of metals through a closed circuit water system.
- SUI tables are transported partially disassembled and compactly packaged, thereby minimising space and reducing energy costs in transport.
- Sustainability is also about designing and producing furniture to last as long as possible. Manufacturing just enough and consuming only what is necessary. Quality as opposed to quantity as the best means for reducing energy consumption and minimising waste. SUI tables have a 5 year warranty. They have been designed and made to last through the use of quality materials and a timeless design that does not go out of fashion. Furthermore, all parts can be replaced or refitted.
- INCLASS production processes are certified according to environmental ISO 14.001 quality standards and are carried out through the reduction of waste and energy consumption in order to minimise any impact on the environment.

REGULATIONS

SUI tables have successfully passed tests carried out by the Furniture Industry's Technological Institute (AIDIMA) in compliance with the following quality standards:

- UNE: EN 527-1:2011. Office furniture. Work tables and desks. Part 1: Dimensions.
- UNE: EN 527-2:2003. Office furniture. Work tables and desks. Part 2: Mechanical safety requirements.
- UNE: EN 527-3:2003. Office furniture. Work tables and desks. Part 3: Test methods for the determination of the stability and mechanical strength of the structure.
- UNE: EN 15372:08. Office furniture. Strength, durability and safety. Requirements for non-domestic tables. Office furniture. Work tables and desks. Part 2: Strength, durability and safety.

The quality management system of INCLASS is certified in accordance with ISO 9001 in all the design, manufacturing and sales procedures of its products.

WARRANTY

INCLASS MOBLES S.L. guarantees the products from the SUI collection against defective materials and workmanship for a period of 5 years from the purchase date. Any damage caused by misuse, negligence or accident as well as that arising from inadequate product maintenance is excluded from this warranty. Natural ageing and wear-and-tear of surface materials are also excluded. The establishment must demonstrate the date of purchase of the article with the corresponding invoice.

INCLASS will replace or repair any faulty products or parts free of charge and any further liability is excluded.
