

AIR chairs are manufactured with either a backrest in a breathable mesh, in a choice of five colours, or with an upholstered backrest. The version with an upholstered backrest can be customised with horizontal seams. AIR chairs can also incorporate different arms, mechanisms and options to adapt to the specific needs of each user or project.

## DESIGNER: Jean Louis Irtzoki

Born in San Juan de Luz in 1965, in 1982 he gained a diploma in Interior Architecture from the Boule-Paris School. Later, he specialised in Industrial Design at the Experimental School of Madrid and, after several years' experience in Parisian agencies, he decided to create his own design workshop in the Basque Country. He then began to collaborate with well-known enterprises in Spain, France and Portugal. His character and, above all, his listening skills have turned his creations into unique pieces that have gone down in history. He works above all for the world of furniture for both the home and the office and, as he himself points out, his designs are open to the possibilities of functionality, understanding and quality.

## BACKREST

The backrests are available in two sizes and are adjustable in height  $\pm 6$ cm using an up&down system. They can also be equipped with an adjustable padded lumbar support. The backrests are available in two versions mesh or upholstered:

### Mesh backrests:

Ergonomic backrest composed of a reinforced polyamide frame covered with a breathable and hard-wearing polyester mesh. The T shaped backrest joint part is in black colour and includes the back height adjustment mechanism  $\pm 60$ mm. The breathable mesh is made of polyester and nylon. It is available in white, black, lilac, green and grey colour.

### Upholstered backrest:

Ergonomic backrest composed of a reinforced polyamide frame covered with a breathable 3D mesh and the upholstery fabric. The T shaped backrest joint part is in black colour and includes the back height adjustment mechanism  $\pm 60$ mm. The backrests can be upholstered in any of the leathers or fabrics of the INCLASS swatch cards and also with fabrics supplied or specified by the customer. The upholstery is available in two versions: plain or with horizontal seams.

## SEAT

Ergonomic design with convex shape on frontal area which improves blood-flow in the legs. Inner plastic seat covered with molded high density and resilience CMHR polyurethane foam. The seat is height-adjustable via a gas-lift column. The seats can be upholstered in any of the leathers or fabrics of the INCLASS swatch cards and also with fabrics supplied or specified by the customer.

	Height	Seat height	Width	Seat width	Depth	Seat depth	Weight (kg)	Fabric (cm)
 AIRO12 AIRO22	111,5 101,5	51,5 41,5	70	46	70	46	19	50
 AIRO13 AIRO23	100,5 90,5	51,5 41,5	70	46	70	46	17	50

	Height	Seat height	Width	Seat width	Depth	Seat depth	Weight (kg)	Fabric (cm)
 <p>AIROO42SI AIRO242SI</p>	111,5 101,5	51,5 41,5	70	46	70	46	18	100
 <p>AIROO44SI AIRO244SI</p>	100,5 90,5	51,5 41,5	70	46	70	46	22	100

## MECHANISMS

AIR chairs can be equipped with two types of movement mechanisms:

### Synchro SY004 (standard):

Synchro tilt mechanism with side tension adjustment. It has five locking positions with safety unlocking. Seat tilt angle up to 11° and backrest tilt angle up to 22°. It allows the seat height adjustment. The mechanism is made of aluminum and comes finished in black. Optionally, it may include a seat depth adjustment function.

### Synchro basik SY006 (optional):

Synchro tilt mechanism with tension adjustment knob. It has five locking positions with safety unlocking. Seat tilt angle up to 11° and backrest tilt angle up to 20°. It allows the seat height adjustment. The mechanism is made of a steel and comes finished in black.

### Synchro SF001 (optional):

Synchro mechanism with self-tension adjustment for users from 40 to 120kg. Knee-tilt locking in one work position and seat height adjustment.

## ARMS

AIR chairs can be equipped with 3 types of arms:

**Polyamide fixed arms with integral polyurethane soft-touch armrests in black colour.**

*Standard*

**Standard height adjustable arms in black colour.**

*Optional*

**4D polyamide adjustable arms.**

Adjustable in height, width, depth and armrest rotation. Integral polyurethane soft-touch armrests in black colour.

*Optional*

**4D polished aluminum adjustable arms.**

Adjustable in height, width, depth and armrest rotation. Integral polyurethane soft-touch armrests in black colour.

*Optional*

## BASES

**Base of polyamide Ø680mm with five spokes in black colour.**

*Standard*

**Base of die-cast aluminium with five spokes and polished finishing.**

*Optional*

## CASTERS

**Set of 5 twin casters with soft tread.**

**Set of 5 twin casters with safety break.**

**Set of 5 twin casters Ø65 with soft tread.**

**Set of 5 hollow twin casters with soft tread.**

**Set of 5 fix glides.**

## CERTIFICATIONS & STANDARDS

- European standard UNE EN 1335-1:01.
  - European standard UNE EN 1335-2/3:09.
  - Certificate of comfort index.
  - AIDIMA Quality Control Label
- The quality management system of INCLASS is certified in accordance with ISO 9001 in all the design, manufacturing and sales procedures of its products.
- INCLASS production processes are certified according to environmental ISO 14.001 quality standards and are carried out through the reduction of waste and energy consumption in order to minimise any impact on the environment.
