

Designed by Jorge Pensi AARHUS, is a multipurpose seating collection with modular seats and tables that are combined into an elegant horizontal aluminum frame that brings together the different elements. The combinations create different configurations in order to customize the benches to the requirements of spaces, uses and architectures. The seats and backrests can be made of integral polyurethane in black or grey colour or can be upholstered.

DESIGNER: Jorge Pensi

Jorge Pensi Design Studio was set up in 1984. Since then the studio has consolidated its position as a global point of reference for contemporary design. Its minimalist and expressive designs have received numerous prizes and awards. Some of its first products, such as the Toledo chair or the Regina lamp, have since become Spanish design icons renowned worldwide. In 1997, Jorge Pensi was awarded the National Design Prize by the Ministry of Industry and Energy and the BCD Foundation for outstanding professional achievement. If there is one thing which defines Jorge Pensi Design Studio's products, it is their timelessness. They constantly seek a balance between poetry and realism, material and space, abstraction and emotion. The aim is to create as many sensations as possible with as few resources as possible, challenging the usual logic in order to establish whether or not it is possible to create something new.

SEATS

The seat are available in two versions:

Upholstered seats:

Are made with an inner steel structure covered with high density and resilience CMHR moulded polyurethane foam. The seats can be upholstered in any of the leathers or fabrics of the INCLASS swatch cards and also with fabrics supplied or specified by the customer.

Integral polyurethane seats:

Are made with an inner steel structure covered with moulded integral polyurethane foam. Are available in black or grey colour.

PLATFORM BEAMS

Made of two extruded aluminium profiles with a special section designed to be highly resistant to bending. The endings are made of steel. Finished with polyester textured paint in aluminium or white colour. The beams are available in different sizes ranging from 2 to 6 seats. Any of the seats can be replaced for a table top. Other sizes can be produced for special projects.

	Height	Seat height	Arm height	Width	Seat width	Depth	Seat depth	Weight (kg)	Fabric (m)
 AARO102	89	43	59	150	68	65	47	10	280
