

Designed by Jonathan Prestwich, ARYN is a collection of versatile chairs that easily crosses the boundaries between the different domestic and professional environments. A truly transversal, contemporary, light and fresh design that balances form and function being at the same time fascinating from any perspective. Designed to optimise comfort, ARYN chairs are available with two backrest sizes and with a four legged or sled base frame, both of them stackable. The frames, seats and backrests are available in a wide range of selected timeless colours. For greater comfort, the seats can also be fully upholstered. Its light and timeless design together with its great functionality ensure years of everyday use in a wide range of public and private environments.

**SEATS & BACKRESTS**

**Composition:** Polypropylene.

**Finishes:** available in 14 selected colours with a matt non-slip texture on both sides.

**UPHOLSTERED SEAT**

Inner seat made of polypropylene covered in high-resilience flexible CMHR polyurethane foam.

**Finishes:** The upholsteries are available in any of the fabrics and leathers from the INCLASS sample book and optionally with fabrics supplied or specified by the customer.

**STRUCTURES**

**4 leg base:**

The legs are made of 16mm round steel tube 2mm thick.  
**Finishes:** available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

**Glides:** includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.  
**Stackability:** this version is stackable.

**Sled base chair:**

The frame is made in 12mm solid steel rod.  
**Finishes:** available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

**Glides:** includes standard plastic glides in contact with the floor. To prevent from detaching, the glides are fixed to the structure with screws. They can be optionally fitted with felt glides, suitable for hard and delicate surfaces.  
**Stackability:** this version is stackable.

**ACCESSORIES**

**Foldable writing tablet:**

It is fully foldable and can be dismantled. The joint is in polished cast aluminium. The writing tablet is made of 10mm black compact board. It is available for left- and right-handed users.

**Linking clips for rod sled chairs:**

Made of polypropylene. Allow linking rod sled base chairs together to form rows.

**Transport trolley:**

It allows for easy transport of the stacked chairs for storage. It is made from steel tube and plate. It is finished in thermoset polyester paint in RAL 9006 aluminium colour.

**CERTIFICATION & STANDARDS**

European Standard UNE EN 16139-2 and ANSI BIFMA X5.4  
 AIDIMA quality label.

INCLASS quality management is certified in accordance with the ISO 9001 standard in all the design, manufacturing and marketing processes for its products.

INCLASS production processes are certified according to ISO 14001 environmental standard and are performed to minimise environmental impact.
