

ARYN MAX is a collection of versatile chairs that stands out for its light, essential and functional design. The collection expands the possibilities of the ARYN family, now with chairs that have a larger backrest. Its essential, pure and timeless design has been developed to inhabit different spaces in offices, schools, universities, hotels, restaurants and private residences. ARYN MAX chairs are available with a four-leg or sled base frame. Both versions are stackable. The seats and backrests are available in a select range of plastic colours or in a fully upholstered version that is available in a wide variety of fabrics and leathers.

SEATS & BACKRESTS

Composition: Polypropylene.

Finishes: available in 14 selected colours with a matt non-slip texture on both sides.

UPHOLSTERED SEATS & BACKRESTS

Inner seat made of polypropylene covered in high-resilience flexible CMHR polyurethane foam.

Finishes: The upholsteries are available in any of the fabrics and leathers from the INCLASS sample book and optionally with fabrics supplied or specified by the customer.

STRUCTURES

4 leg base:

The legs are made of 16mm round steel tube 2mm thick.
Finishes: available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
Stackability: this version is stackable.

Sled base chair:

The frame is made in 12mm solid steel rod.
Finishes: available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: includes standard plastic glides in contact with the floor. To prevent from detaching, the glides are fixed to the structure with screws. They can be optionally fitted with felt glides, suitable for hard and delicate surfaces.
Stackability: this version is stackable.

ACCESSORIES

Foldable writing tablet:

It is fully foldable and can be dismantled. The joint is in polished cast aluminium. The writing tablet is made of 10mm black compact board. It is available for left- and right-handed users.

Linking clips for rod sled chairs:

Made of polypropylene. Allow linking rod sled base chairs together to form rows.

Transport trolley:

It allows for easy transport of the stacked chairs for storage. It is made from steel tube and plate. It is finished in thermoset polyester paint in RAL 9006 aluminium colour.

CERTIFICATION & STANDARDS

European Standard UNE EN 16139-2 and ANSI BIFMA X5.4

INCLASS quality management is certified in accordance with the ISO 9001 standard in all the design, manufacturing and marketing processes for its products.

INCLASS production processes are certified according to ISO 14001 environmental standard and are performed to minimise environmental impact.
