

## ENVIRONMENTAL PRODUCT DECLARATION

Aware of our environmental responsibility towards future generations, the design and manufacturing of this product line is done considering ecological and sustainability criteria.

The ARYN collection is locally manufactured in our ISO 9001 and ISO 14001 certified production plant in Alicante, Spain.

All ARYN products have been designed to minimize the number of components and to maximize the number of interchangeable pieces. INCLASS has given priority to the use of recyclable and environmentally friendly materials, as well as clean production processes. INCLASS classifies, separates, and recycles all the waste it generates on its production plant and under strict certified procedures.

To prevent unnecessary waste, to minimize the use of energy and natural resources, the ARYN collection has been designed to last over time. The products have a timeless aesthetics, away of short-term trends and have been tested under strict international quality standards which guarantee a long product life.

## MATERIALS

INCLASS is firmly committed to the production of products which help to create safe and healthy environments.

We are constantly working on reducing and eliminating hazardous or harmful chemicals in all of our products and processes and in a continuous search for safer and better alternatives that are becoming commercially available.

These efforts include, among others:

The use of water-based glues that are solvent free.

The use of wood based materials which match CARB standards of low formaldehyde emissions.

To promote the use of natural fabrics and fabrics labelled with OEKO-TEX® or ECOLABEL certificate.

The use of upholstery foams free from Chlorofluorocarbons (CFCs) and Hydrochlorofluorocarbons (HCFCs).

If quality standards allow it, the products contain recycled raw materials.

Most of our products can be completely separated for proper recycling.
