

ENVIRONMENTAL DECLARATION

Aware of our environmental responsibility towards future generations, this product line has been designed considering a series of ecological and sustainability criteria.

All the articles have been designed to minimize the number of components and to maximize the number of interchangeable pieces. INCLASS has given priority to the use of recyclable and environmentally friendly materials, as well as clean production processes. The company classifies, separates, and recycles all the waste it generates on its production plant under strict certified procedures.

In order to prevent unnecessary waste and to minimize the use of energy and natural resources, this collection has been designed to be long-lasting. All the models have a timeless aesthetics, away of short-term trends and have been tested under strict international quality and durability standards which guarantee long life products.

All the collection is locally manufactured in our ISO 9001 and ISO 14001 certified production plant in Alicante, Spain. ISO 14001 Environmental Management System is globally recognized and trusted. INCLASS is audited annually by Bureau Veritas, a world leader in certification services, which demonstrates our full commitment towards environmental policies and customer excellence.

MATERIALS

INCLASS is firmly committed to the production of products which are environmentally conscious and help to create safe and healthy spaces. Our company is constantly working on reducing and eliminating hazardous or harmful chemicals in all of our products and processes and in a continuous search for safer and better alternatives that are becoming commercially available.

These efforts include, among others:

The use of water-based glues that are solvent free.

Working with suppliers that guarantee their wood comes from sustainable forests.

The use of composed wood parts which are compliant with CRAB ATCM Phase II & TSCA Title VI standards of low formaldehyde emissions.

To promote the use of natural fabrics and fabrics labelled with OEKO-TEX® or ECOLABEL certificates.

The use of upholstery foams free from chlorofluorocarbons (CFCs) and hydrochlorofluorocarbons (HCFCs).

When ever the quality standards allow it, the products contain recycled raw materials.

Most of our products can be completely separated for proper recycling.
