

SAFETY, STRENGTH AND DURABILITY STANDARDS

ANSI/BIFMA X5.1:2011

Office Seating. Comfort, safety, and durability. (1) (2)

Biomechanics Institute of Valencia

FLAMABILITY

INCLASS can produce many of its products to comply with specific flammability standards. The flammability standards are very specific for each area, country, type of use and will also depend on the material and model chosen by the customer. Regarding our standard upholstery fabrics, the flammability properties of each can be found in our Standard Finishes Book. Please contact us for more information about your specifications or needs.

ISO 9001:2015

Audited by Bureau Veritas

ISO 9001 sets out the criteria for a Quality Management System (QMS) that leads to continual improvement. It specifies the requirements for a QMS, focusing on efficient quality management in order to meet customer requirements. ISO quality standards are globally recognized and trusted. ISO 9001 certification by Bureau Veritas demonstrates a commitment to quality and customer excellence.

Quality Management System

SUSTAINABILITY AND HEALTH STANDARDS

ISO 14001:2015

Audited by Bureau Veritas

ISO 14001:2015 Environmental Management System (EMS), specifies requirements that a company can use to enhance its environmental performance in a systematic manner. ISO environmental standards are globally recognized and trusted. ISO 14001 certification by Bureau Veritas ensures complete transparency and accountability of environmental impact improvement in all areas of business of the company.

Environmental Management System
